

Review Notes - I checked and deleted items that were corrected from previous review notes. Left items that were not corrected or added. Added new items found.

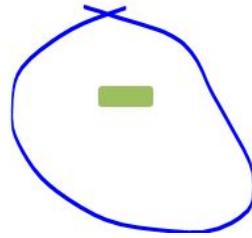

Admin Section - Office

Agent Sites

- How are they created?
- Where are you getting the agent data from?

Slider Manager

1. Option to delete slide completely - not just unpublish
2. Added a banner with text, no button, but a button appeared anyway.

Need Documentation/Steps/Explanations on:

- What is the difference btw Main Menu, Header Menu, Quick Links?
- Adding menu items
- Adding submenu items

I uploaded a PDF, then tried to add to menu and the entire menu header disappeared.

If I am having difficulty understanding the steps, the agents will be lost.

Documents

How to get them to show on menu?

Step by step instructions would be great.

Leads

- During transfer, after clicking Save Changes, 
 - there is a long delay before processing
 - no confirmation saying lead was transferred.
- **Logs** 
 - Change Lead **is** been Assigned To Agent -to- Lead **has** been Assigned To Agent

Featured Listing Setting

Custom Group of Listings not working

- Adding a city searches for county, not city.
- Selecting Property Style - top of select cut off page

What does the Featured Listing Settings control? Where is that shown?

I assumed it was for the listings on the Office page, Like Trinity Office. 

But the listings shown after creating a group were not in the area that I set.

Office Pages

- Takes way too long to load the agents. How can that be made faster?

While waiting for the agents and props to load, the Load More button shows NaN (not a number). 

- Let's remove the property listings from under the agents section on the branch office home pages. 
- Add a button that takes you to a page that shows the listings created in the Featured Listing Setting for each office (Local Area Listings). 
- Add another button that takes you to take you to a page that shows the listings for that office's agents (Office Listings) 
- Add a button that takes them to the advanced search page. (Advanced Search) 

TRINITY OFFICE

SCOTT BARRETT

BROKER MANAGER

 727-487-2460

2144 Seven Springs Blvd., Trinity, FL 34655

 727-243-3664

 scott@myflroffice.com

 luxuryfloridalifestyle.com

Advanced Search

Local Area Listings

Office Listings

- On the Branch Office pages, change the height of the box so the space between the photo and the breadcrumbs navigation are like this: (less space) 
- Same on agent pages

Guide Builder

- Adding a city searches for county, not city same as Featured Listing issue

Site partner list

- Change: Wevsite url -to- Website url

Office manager photo vs agent photo.

You had specified that the image dimensions for the photos be 250x250.

- The office manage photo shows fine, but the agent photos are being resized to 312x215 and look distorted

Users > Agents > Agents List

- Change REGISTERED to REGISTERED 
- What does the Publish Button do? 

BLOGS

- Need explanation on what type of data goes in each of these fields. What they are for.

Social Media

- What does this allow the admin/agent to do?
- Post to their accounts ?
- Pull posts to website?

Articles

- Need explanation on what type of data goes in each of these fields. What they are for.

Link Generator

- What is this for and how is it used?

Main Home Page - floridaluxuryrealty.com

- Make any office email links go to a contact form instead of mailto: links. Store the messages in lead table so admin can assign if a lead or just read and respond.
- On the branch location agent profiles, email link should go to a contact form on the agent's page.
 - Store the message in the agent's leads, email and text the agent
- After submitting a contact us form, it shows a button that says return to homepage. It does not take you to the homepage, just back to the contact us page. 

All agents

- <https://www.floridaluxuryrealty.com/office/OurAgents/> throws errors
 - This link appears in breadcrumbs navigation
 - Don't believe this is a necessary page

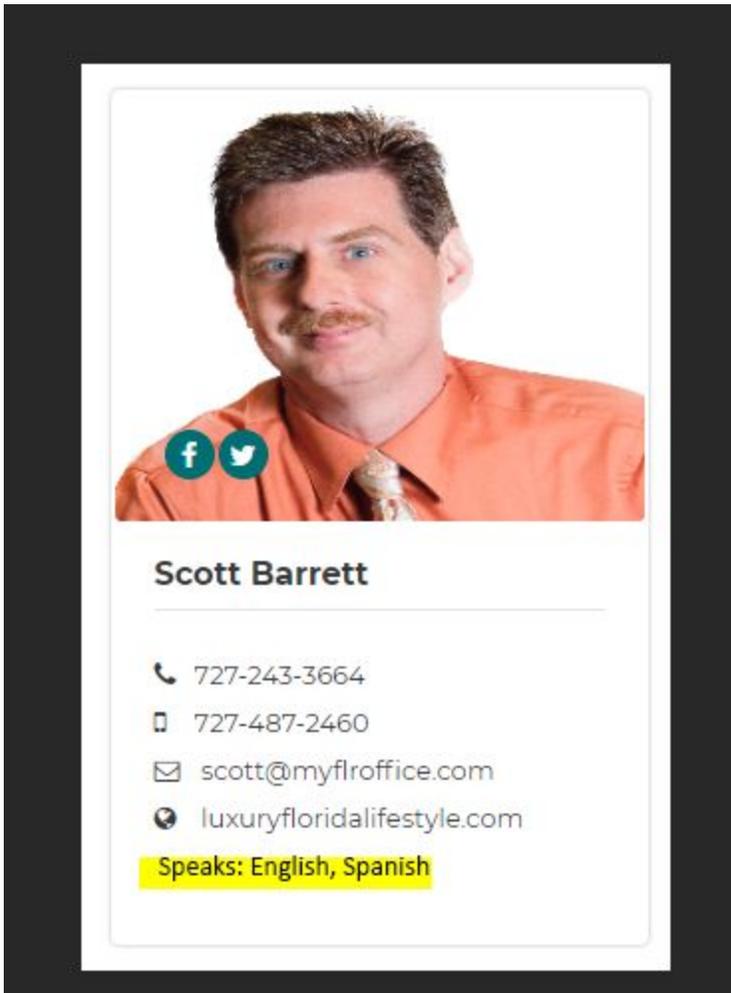

On branch office pages that shows the office's agents

Check their languages spoken from the agent table data.

If no data in the languages field for an agent, don't display anything.

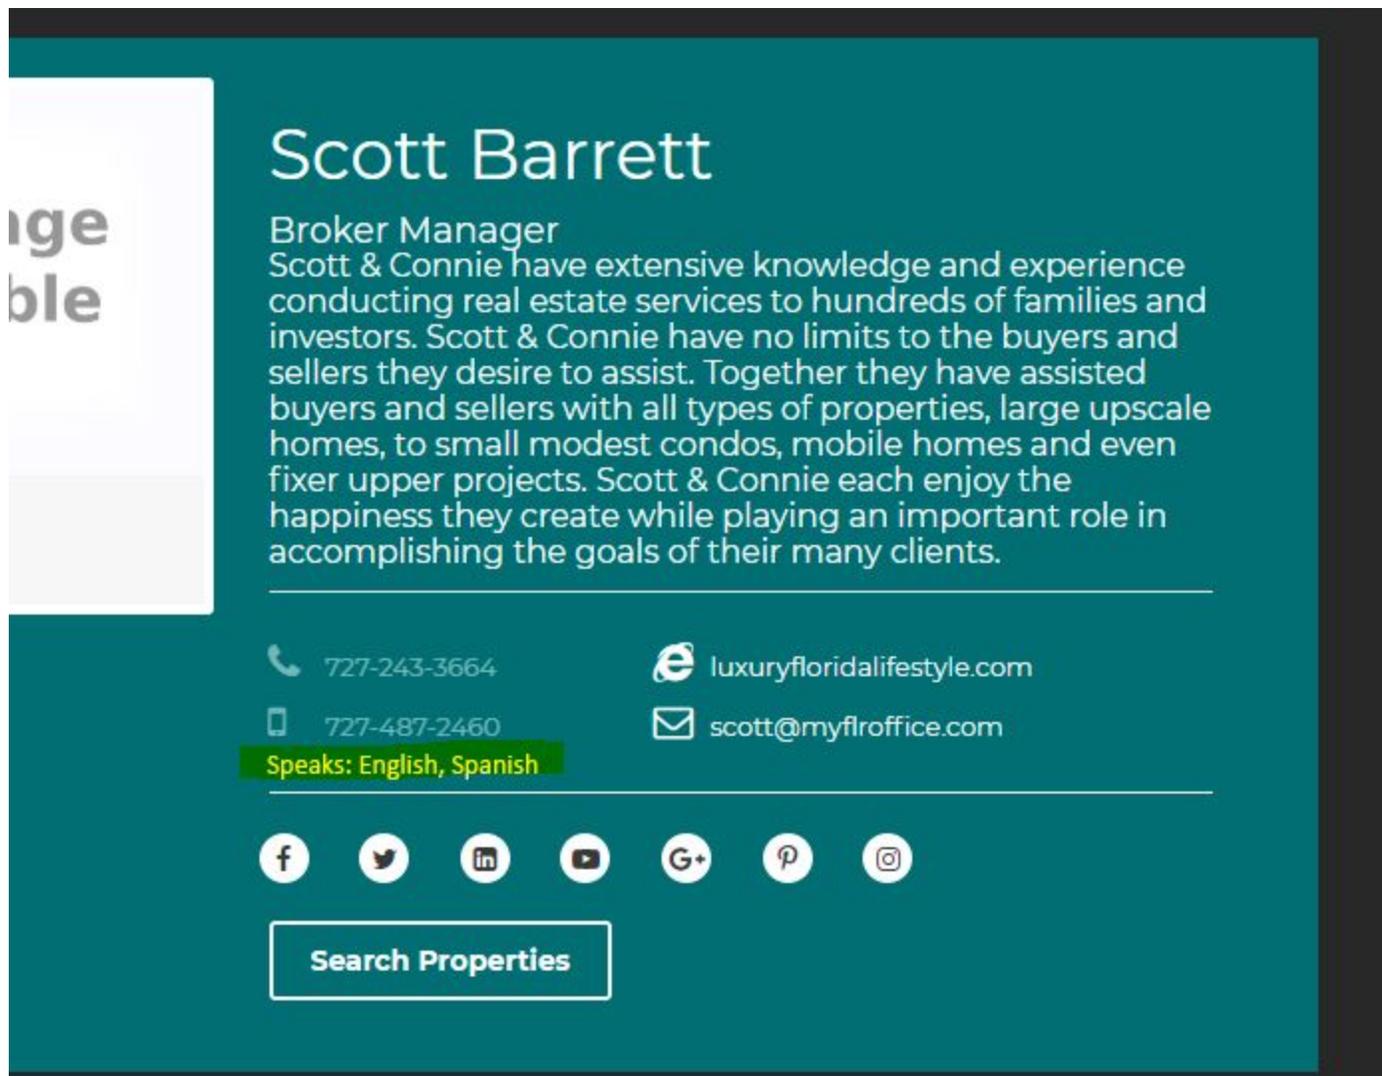

So, if there is a value format as: **Speaks: English, other language(s) - Always put English, then the other language(s)**

If data is in this field, display like:

The image shows a sample agent profile card for Scott Barrett. It features a headshot of a man with a mustache wearing an orange shirt and tie. Below the photo are social media icons for Facebook and Twitter. The name 'Scott Barrett' is displayed in bold. Below the name, there are four contact options: a phone icon with the number 727-243-3664, a mobile phone icon with 727-487-2460, an email icon with scott@myflroffice.com, and a globe icon with luxuryfloridalifestyle.com. At the bottom, a yellow highlighted box contains the text 'Speaks: English, Spanish'.

On an agent's home page, same as above for languages. 

The image shows a teal-colored agent profile card for Scott Barrett. On the left, there is a white vertical bar with the text 'Age' and 'ble' partially visible. The main content area has the name 'Scott Barrett' in a large white font, followed by the title 'Broker Manager'. Below this is a paragraph of text describing his experience. At the bottom, there are contact details: a phone number (727-243-3664), a website (luxuryfloridalifestyle.com), another phone number (727-487-2460), and an email address (scott@myflroffice.com). A green highlight is under the text 'Speaks: English, Spanish'. Below the contact info are social media icons for Facebook, Twitter, LinkedIn, YouTube, Google+, Pinterest, and Instagram. At the very bottom is a white button with the text 'Search Properties'.

Site Settings > Similar Listings Settings

Is this using the Price field to find similar properties?

It should be the price of the subject property +/- the value in the Price field.

There needs to be a field to enter sq. ft.*.

Is this also taking into consideration matching the Property Type, Property Style, County, and Square Footage?

To find similar properties to display:

Find listings that match the subject property price (+/- the value in the Price field),

That are (+/- Sq Ft field value*) of the subject property,

That match the subject property's Property Type, Property Style, and County.

So if user is viewing a specific listing that is:

\$120,000, 2,500 sq ft, Residential, Single Family Residence, in Pasco County

and the **Similar Listings Settings Price** field contains \$10,000

and the **Similar Listings Settings Square Foot** field contains 500

The similar listings should be listings that are:

Between \$110,000 and \$130,000 in price

With a sq. footage range of 2,000 - 3,000

Residential

Single Family Residence

In Pasco County

Guide Builder

Add Subdivision Name and Zip fields to search form

Agent Sites

- Add space btw title and bio.
- Decrease bio font size by 1pt
- Make all email links go to a contact form instead of mailto: links.
Store the messages in agent lead database. Email/text agent the message. 

Agent Admin

Menu Manager

Advace to Advanced. (spelling)

Advance to Advanced.

Change **Advance** to **Advanced** on ALL pages - office and agent.

After logging out.

Your Session is expired, you are redirecting to <https://floridaluxuryrealty.com/externalLogin/request.php>

Should be expired.

Agent Pages

Download my App

By default, all agent sites should have a menu item call MyApp.

That should link to the Mobile URL in a new tab.

Mobile Url

<http://app.floridaluxury.com/FLRMARYBARCHIE>

Error

<https://www.floridaluxuryrealty.com/Administrator/testomonial.php?view=Testomonial&layout=edit&id=409>

Notice: Undefined variable: viewObj in `/home/floridaluxuryrea/public_html/Administrator/testomonial.php` on line 39

Fatal error: Call to a member function LoadTestomonialFormWithData() on null in `/home/floridaluxuryrea/public_html/Administrator/testomonial.php` on line 39

Also testimonial.php should be testimonial.php

Sign up form

Tried to register from an agent's page: (scottbarrett) 

Goes to blank page:

<https://www.floridaluxuryrealty.com/scottbarrett/users.php?view=UserRegistration&action=save>

Remove arrows from phone number field on the modal window form 

<https://stackoverflow.com/questions/3790935/can-i-hide-the-html5-number-input-s-spin-box>

I did not receive a confirmation email that I registered - There is no record in the agent's lead section indicating that I registered

- **Can't test what happens after a user registers - then logs into site to manage their favorites, auto-email of listings, etc. (listing alerts)**

Agent should have the ability to: 

Registration/Login popup after 3 visits of detail page This will be an agent setting where they can choose if a user:

1. Has full access to all listing detail by default - no registration required
2. Can view X number of property detail pages before being required to register
 - a. If set to '0', user must register to view ANY property detail page

I don't see this area

- **I tried to manually add a lead in an agent's control panel. Logs me out every time.**
